Advanced Electric Wheelchairs

A wide range of chairs to suit

Permobil XX

SAAB Permobil Exterior XX

For general outdoor use. Easy to handle, with outstanding capability on hilly terrain, off road, and ice and snow. Popular with young as well as older people. Operated by separate steering and speed controls, requiring good function in both arms.

SAAB Permobil Exterior XD/XS

Same chairs as above, but with a maximum speed and steering control on the right or left side. Requires good functioning in one arm. Optional electric seat elevator.

SAAB Permobil Exterior XD/XS servo

For general outdoor use. Speed and steering controlled with a joystick. Suitable for drivers with limited hand functions. Practical for children and people with vision loss.

Permobil SX/SX

SAAB Permobil Superior SX

For indoor and outdoor use. Chair operated by fingertip control, requiring minimum hand functions. Electronically adjustable back rest, leg rest, foot rest and seat gradient all standard.

Can be equipped with up-and-pull control, chin control and foot control. Can also be adapted for other special requirements.

At any need, solve any problem

main, making it especially suitable for people with severe functioning impairments.

SAAB Permobil Hex-10R

For general indoor use, suitable for home or workplace. Its generic six-wheel design makes it highly maneuverable, even in narrow spaces, and very stable in any position — it can turn around on the spot. Operated with right or left-mounted joystick.

Can be equipped with seat elevator, and backplate that can be lowered to the floor, the so-called RA-backplate. This accessory facilitates movement into and off the chair, particularly helpful for people with severe rheumatism.

SAAB Permobil Min-10R

Children's chair for use indoors, and to a limited extent outdoors. Designed especially for children's needs at home and at school. Operated with a joystick. Standard equipment includes a collision protector, that is, a bumper that stops the chair automatically if it collides with any obstacle. Also appropriate for adults, mainly for indoor use.

Can be equipped with seat elevator and communications link, a remote control device to control various functions outside the operator's own reach, tuning on and off lights, TV's, typing and other activities.

\$2995. 60% discount

SAAB Permobil Max-10R

For use indoors, and to a limited extent outdoors. Easy-to-operate chair for adults, requiring only one hand to control joystick.

Can be equipped with seat elevator, RA-backplate, and remote control.

All models adaptable to wide range of seats and accessories, such as holders for crutches or canes, baskets for hand luggage, rearview mirrors, etc. Table below gives technical specifications and a selection of various adaptations possible for each model.

* accessories or adaptation

** with one control

There is nothing
more difficult to take in hand,
more perilous to conduct,
or more intricate in its demands,
than to take the lead in the introduction
of a new order of things.
For he who would change
will find himself opposed
by all who prospered
under the old ways,
and indifferently rebuked
by those who might be
amenable to the new.

Freely translated from Niccolò Machiavelli, 1498
